

Multilex Bulletin – May 2026

The Multilex Bulletin is an indication of notable changes made to the Multilex database. It also provides general information and advance warnings of changes for future months. Changes to product name are expressed in the form of the Multilex Preferred Display Name. Customers using other naming conventions may not see the changes as listed. Visibility of changes is dependent on the current data being loaded into your system and the specified element being available via your interface.

This document is not a list of all changes to the Multilex database.

The Multilex Bulletin is also available at www.fdbhealth.co.uk

Advance Warnings

Tramadol 100mg, 150mg and 200mg modified release tablets and morphine sulphate 100mg modified release capsules

Due to changes in the availability of some strengths of tramadol modified release tablets and morphine sulphate 100mg modified release capsules, changes will be made in May to the Multilex records. This will mean the records become eligible for electronic transfer (ETP) for more customers. This will involve moving VMP links.
