

Multilex Bulletin – October 2024

The Multilex Bulletin is an indication of notable changes made to the Multilex database. It also provides general information and advance warnings of changes for future months. Changes to product name are expressed in the form of the Multilex Preferred Display Name. Customers using other naming conventions may not see the changes as listed. Visibility of changes is dependent on the current data being loaded into your system and the specified element being available via your interface.

This document is not a list of all changes to the Multilex database.

The Multilex Bulletin is also available at www.fdbhealth.co.uk

Able Spacer with infant mask spacer/holding chamber device now reads:
Able Spacer 2 with infant mask spacer/holding chamber device

Kinetik Wellbeing biosensor strips

Kinetik Wellbeing biosensor strips now reads:
Kinetik Wellbeing AG-607 biosensor strips

Other Changes

Co-amoxiclav standard and sugar-free oral suspensions

The data has been updated in regard to Multilex theoretical Generic products for both standard and sugar-free formulations of co-amoxiclav suspensions (as listed in the England and Wales Drug Tariff October 2024). Where applicable the relationship of brands and branded generics to the theoretical generics has changed.

There is a risk of Electronic Transfer of Prescription (ETP) disruption as dm+d had not yet published their intended actions when the Multilex data was prepared. Any issues will be addressed in the subsequent data load.
