

## Multilex Bulletin - April 2025

The Multilex Bulletin is an indication of notable changes made to the Multilex database. It also provides general information and advance warnings of changes for future months. Changes to product name are expressed in the form of the Multilex Preferred Display Name. Customers using other naming conventions may not see the changes as listed. Visibility of changes is dependent on the current data being loaded into your system and the specified element being available via your interface.

This document is not a list of all changes to the Multilex database.

The Multilex Bulletin is also available at [www.fdbhealth.co.uk](http://www.fdbhealth.co.uk)

Protea Vital beige large beige ileostomy bag with filter cut-to-fit 13-63mm DVF3L

## **General Information**

### **Manufacturer updates**

FDB have completed a program of work to improve the alignment of the manufacturer information of Multilex records with the dm+d. This final stage will deliver this month and will see a higher number than usual of changes in this information (13,000 plus product and pack records).

Due to some technical constraints, some record anomalies will persist at this time. If any specific records continue to cause issues, customers are advised to contact Customer Support.
